Let the Feel of Our Pottery Be a Healing Touch

Product Catalog

What Makes Our Pottery Unique?

Notice the stones attached to the thumb rest of the mug? Donna Rollins has developed and patented the placement of a healing stone or birthstone so that when you drink your favorite beverage, your thumb will come in contact with the stone.

We use authentic stones, gemstones, and crystals and each mug is tagged with a stone description that personalizes the gift for the consumer.

All of our products are hand crafted by artisan potters in New Hampshire, USA.

Mother's Mug

Father's Mug

Father: A father is a pillar in strength and protection that builds a child's foundation like a cornerstone. He loves with gentleness, teaches with wisdom, and inspires with words of affirmation and affection.

River Stone: This stone symbolizes the influence of the river's current and the rock's power that a father achieves throughout the years.

The Father's Mug is an extension of love and gratitude from the child.

Butterfly Mug and Dragon Fly Mug

These beautiful mugs are available in two styles: Tall Fancy (BF, DF) and Tankard (BT,DT). Select glaze and stone

Friendship Mug

The Friendship Mug: This limited edition mug is an extension of friendship.

The Celtic Knot: This four-part Trinity Knot represents the bonds of friendship of past, present, and future.

Emerald: Emerald is the most precious stone of the beryl species. It is also the stone of reason, wisdom, and truth. These are the same qualities an endearing friendship possess. When received from a loving friend, this stone inspires and supports the bonds of friendship.
