Metaphysical Offerings

What Makes Our Pottery Unique?

In addition to our Product Catalog, Donna Rollins, owner of Healing Touch Pottery, now offers pottery designed specifically for the metaphysical market. This Metaphysical Offerings catalog will give you an idea of just how different and energetic our pottery can be for your shop. In addition to our patented Healing Stone Mugs, Donna has teamed up with Carla Goddard Msc.D. She holds a Doctorate in Metaphysical Sciences and brings with her the knowledge and expertise to Donna's creations.

We use authentic stones , gemstones, and crystals with many of our pottery offerings and most of our products are tagged with a stone description that personalizes the gift for the consumer.

Metaphysical Mugs

The Gifts of Illumination Series

The Gifts of Illumination Series of mugs was designed by Carla Goddard, Msc.D., our metaphysical director. Dr. Goddard is a contemporary Medicine Woman with a background in Metaphysical Sciences and Clinical Hypnotherapy.

She holds the perspective that within each one of us there lies the sacred resources that in many cases are not being brought into use. With these sacred resources from within anyone can achieve their goals, overcome limitations, and find passion again. These mugs bring her vision to the surface and are designed to help you gain in the areas that each mug represents. Each mug comes with a tag describing the purpose.
